HELP THEM GET SAFE & HAVE FUN

Your child will think that they are just having fun learning to perform movie stunt skills just like they have seen in this summer's blockbuster movie, Kung Fu Panda 2. But you'll be giving them life-long safety lessons to help them deal with things such as Stranger Danger and Bully Prevention.

Your child will learn to do:

- Tumbling routines, that will help them with agility as well as learn to fall and get right back up
- Use their voice for public speaking as well as assertively handle a confrontation with a stranger or a bully at school
- Choreograph routines which helps them learn to work with others

Your child will become a
martial arts super star!
